of foods.

V. When water is taken into the system it assists without doubt in the building up of new tissues, in the repair of old. According to this view it is not merely a dilutent of fluids, it does no

of old. According to this view it is not merely a dilutent of fluids, it does not simply play an inactive part like a laberant of members, but it is in the VL Life can not be maintained on pure starch sugar, or fat for a long time; on the other hand, a purely ment. VL Life can not be made the basis of diet, but rice can, so that, taking complex foods, rice heads the list. Of VLI. Sugar can not be made the basis of diet, but rice can, so that, taking complex foods, rice heads the list. Of very little addition, millions of human being live—viz, rice, bread and potatoes—rice is nearly all assimilated to rice, while with polatoes there is nearly all productions of the production of the produ

MACAULAY

The Greet English Historian and Eccapial to Childhood.

Macaulay was a simple and natural abilid, yet his manners were quaint and bit style of speech precise, if not pedantic. When he was four years of use, he went one day to the front door, to tell a lady who had called that his parents were out, but if she would come in, he would bring her a glass of old apprist.

in, he would bring her a glass of old papers, and a paper and a pa
